

Project Design Phase-II

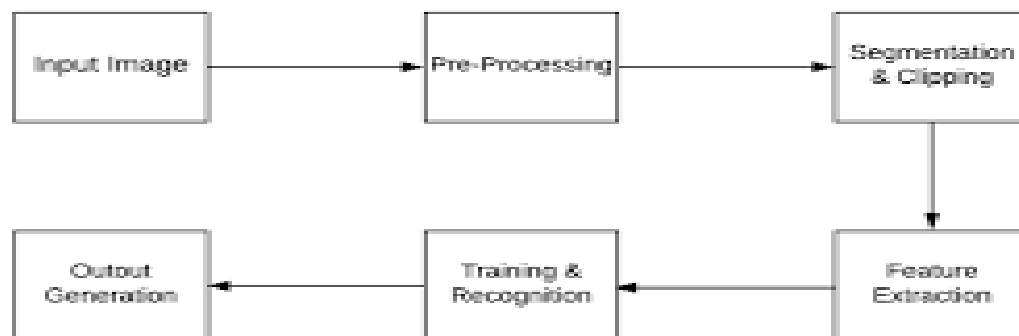

Data Flow Diagram & User Stories

Date	22 October 2022
Team ID	PNT2022TMID33236
Project Name	A Novel Method for Handwritten Digit Recognition System
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example:

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	I can access my account / dashboard	High	Sprint-1
Customer	application	USN-2	As a user, I will receive confirmation email once I have registered for the application	I can receive confirmation email & click confirm	High	Sprint-1
Customer	Data set	USN-3	As a user it is help to understand the data	I can access the data	Low	Sprint-2
Customer	Usage	USN-4	We can use the application to identify the hand written digit recognition	It is very helpful for digit recognition	Medium	Sprint-1
